The Psychosocial Implications of Disney Movies-Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Longest August-Dilip Hiro 2015-02-24 The partitioning of British India into independent Pakistan and India in August 1947 occurred in the midst of communal holocaust, with Hindus and Sikhs on one side and Muslims on the other. More than 750,000 people were butchered, and 12 million fled their homes -- primarily in caravans of bullock-carts -- to seek refuge across the new border: it was the largest exodus in history. Sixty-seven years later, it is as if that August never ended. Renowned historian and journalist Dilip Hiro provides a riveting account of the relationship between India and Pakistan, tracing the landmark events that led to the division of the sub-continent and the evolution of the contentious relationship between Hindus and Muslims. To this day, a reasonable resolution to their dispute has proved elusive, and the Line of Control in Kashmir remains the most heavily fortified frontier in the world, with 400,000 soldiers arrayed on either side. Since partition, there have been several acute crises between the neighbors, including the secession of East

Pakistan to form an independent Bangladesh in 1971, and the acquisition of nuclear weapons by both sides resulting in a scarcely avoided confrontation in 1999 and again in 2002. Hiro amply demonstrates the geopolitical importance of the India-Pakistan conflict by chronicling their respective ties not only with America and the Soviet Union, but also with China, Israel, and Afghanistan. Hiro weaves these threads into a lucid narrative, enlivened with colorful biographies of leaders, vivid descriptions of wars, sensational assassinations, gross violations of human rights -- and cultural signifiers like cricket matches. The Longest August is incomparable in its scope and presents the first definitive history of one of the world's longest-running and most intractable conflicts.

Faith and Film-Edward N. McNulty 2007 Growing numbers of church leaders are discovering that many films are able to impact viewers with gospel truths almost as well as a good sermon. Ed McNulty, a former pastor and longtime reviewer of films, offers this guide to help church leaders enter into dialogue with contemporary films. McNulty carefully crafts a theology of movies and then provides practical suggestions for creating and leading movie discussions with groups. In addition, he provides people from all across the theological spectrum with a framework to understand whether the overall message of a film outweighs concerns over profanity, violence, or sex in the film. He concludes by introducing twenty-seven films and including provocative questions about each that will prepare leaders to assemble and facilitate a group. Popular films explored include *The Color Purple*; *Crash*; *Hotel Rwanda*; *The Matrix*; *Million Dollar Baby*; *O Brother, Where Art Thou?* and *The Shawshank Redemption*.

But all that changed the day she agreed to share the spotlight with her best friend and former assistant Evie Tanaka—who's now a badass, fire-wielding superheroine in her own right. They were supposed to be a dynamic duo, but more and more, Aveda finds herself shoved into the sidekick role. Where, it must be said, she is not at all comfortable. It doesn't help that Aveda's finally being forced to deal with fallout from her diva behavior—and the fact that she's been a less than stellar friend to Evie. Or that Scott Cameron—the man Aveda's loved for nearly a decade—is suddenly giving her the cold shoulder after what seemed to be some promising steps toward friendship. Or that the city has been demon-free for three months in the wake of Evie and Aveda's apocalypse-preventing battle against the evil forces of the Otherworld, leaving Aveda without the one thing she craves most in life: a mission. All of this is causing Aveda's burning sense of heroic purpose—the thing that's guided her all these years—to falter. In short, Aveda Jupiter is having an identity crisis. When Evie gets engaged and drafts Aveda as her maid-of-honor, Aveda finally sees a chance to reclaim her sense of self and sets out on a single-minded mission to make sure Evie has the most epic wedding ever. But when a mysterious, unseen supernatural evil rises up and starts attacking brides-to-be, Aveda must summon both her superheroine and best friend mojo to take down the enemy and make sure Evie's wedding goes off without a hitch—or see both her city and her most important friendship destroyed forever.

Cold War in the Islamic World-Dilip Hiro 2019-02-01 For four decades Saudi Arabia and Iran have vied for influence in the Muslim world. At the heart of this ongoing Cold War between Riyadh and Tehran lie the Sunni-Shia divide, and the two countries' intertwined histories. Saudis see this as a conflict between Sunni and Shia; Iran's ruling clerics view it as one between their own Islamic Republic and an illegitimate monarchy. This foundational schism has played out in a geopolitical competition for dominance in the region: Iran has expanded its influence in Syria, Iraq and Lebanon, while Saudi Arabia's hyperactive crown prince, Muhammad bin Salman, has intervened in Yemen, isolated Qatar and destabilized Lebanon. Dilip Hiro examines the toxic rivalry between the two countries, tracing its roots and asking whether this Islamic Cold War is likely to end any time soon.

The Three-Sarah Lotz 2014-05-20 Four simultaneous plane crashes. Three child survivors. A religious fanatic who insists the three are harbingers of the apocalypse. What if he's right? The world is stunned when four commuter planes crash within hours of each other on different continents. Facing global panic, officials are under pressure to find the causes. With terrorist attacks and environmental factors ruled out, there doesn't appear to be a correlation between the crashes, except that in three of the four air disasters a child survivor is found in the wreckage. Dubbed 'The Three' by the international press, the children all exhibit disturbing behavioural problems, presumably caused by the horror they lived through and the unrelenting press attention. This attention becomes more than just intrusive when a rapture cult led by a charismatic evangelical minister insists that the survivors are three of the four harbingers of the apocalypse. The Three are forced to go into hiding, but as the children's behaviour becomes increasingly disturbing, even their guardians begin to question their miraculous survival...

Endangering Science Fiction Film-Sean Redmond 2015-06-26 Endangering Science Fiction Film explores the ways in which science fiction film is a dangerous and endangering genre. The collection argues that science fiction's cinematic power rests in its ability to imagine 'Other' worlds that challenge and disturb the lived conditions of the 'real' world, as it is presently known to us. From classic films such as *2001: A Space Odyssey* and *Solaris* to modern blockbusters including *World War Z* and *Gravity*, and directors from David Cronenberg to Alfonso Cuarón, contributors comment on the way science fiction film engages with dangerous encounters, liminal experiences, sublime aesthetics, and untethers space and time to question the very nature of human existence. With the analysis of a diverse range of films from Europe, Asia, North and South America, *Endangering Science Fiction Film* offers a uniquely interdisciplinary view of the evolving and dangerous sentiments and sensibility of this genre.
